

THE SOUTH JERSEY BAND AND ORCHESTRA DIRECTORS ASSOCIATION HANDBOOK

The purpose of this handbook is to document the policies and activities of the South Jersey Band and Orchestra Directors Association. Due to the many facets of our performing groups, and the auditions that are necessary to form these groups, a handbook has been established for the benefit of all teacher/members that participate.

Please keep this handbook on file for future years. When necessary, updated information will be sent to all participating directors and a corrected version will be posted on the region web site. As changes are made, the on-line handbook will be updated. Periodically the handbook will be reprinted. Through the use of this handbook we should be able to reduce the amount of material sent out each year regarding the auditions, rehearsals and performances. This handbook should be a handy reference and answer many of the questions that you have. Any questions concerning the information in this handbook should be directed to the officers of the organization.

This edition contains changes approved through June, 2007.

AUDITION INFORMATION

AUDITION PLACEMENT

Senior high students will be placed in performing group(s) according to the highest score achieved. On the application for high school wind and percussion auditions, each student must indicate in the appropriate area if they are auditioning for Wind Ensemble and Symphonic Band Only, Orchestra Only, or Wind Ensemble, Symphonic Band and Orchestra. Students also should indicate if they are auditioning on more than one instrument. Students who audition on more than one instrument may select either highest seating or their choice of instrument should they qualify on more than one instrument.

AUDITION INSTRUCTIONS

Audition information and applications will be posted on the region web site following the fall general meeting. Any director sponsoring a student must be a member of Music Educators National Conference. If the director is not a member the membership fee must be paid on or before the day of auditions, MENC membership fees may be submitted with an application to the Past President at the audition meeting. Mailing the above directly to MENC may result in your membership card being delayed and your membership not being verified.

Applications are to be mailed to the Auditions Chairperson with all information completed. The application fees are to be paid by: Postal Money Order, Cashier Check, Director's Personal Check, Band Activities Check. Personal checks from parents, cash, and school vouchers **WILL NOT BE ACCEPTED**. If these requirements are not met, the director's entire packet will be returned. Application deadlines are listed on each application packet; applications not postmarked by the due date will be considered late and a late fee of \$25.00 per application (Dec. audition) or \$25.00 per school (Jan. audition and Elementary) will be assessed. Applications postmarked after the final deadline will be returned and those students will be ineligible to audition. The director will be notified by telephone and email by the Auditions Chairperson that his/her students are ineligible due to late mailing of the applications and fees.

All directors sponsoring students must attend and participate in the audition process; i.e. adjudication, moderating, monitoring, etc. Failure to do so may result in the disqualification of the student for All South Jersey and All State organizations. While auditions are in progress, only authorized members of the Executive Board or those persons designated by the Audition Procedures Chairperson are to be in the hallways. A minimum number of students awaiting auditions will be permitted in the audition area outside of the appropriate audition room. All other people will remain in the warm-up area, including parents who are transporting students.

Infractions of any audition procedures should be reported immediately to the **TABULATION ROOM** and a member of the **EXECUTIVE COMMITTEE**. Do not wait until the auditions are completed to clarify or rectify a situation. Results will be declared final.

ADJUDICATORS & MODERATORS

Listed below is information from the “Audition Room Instructions” that are distributed to Adjudicators and Moderators prior to auditions:

“All judges are to report directly to their assigned audition room following the directors meeting. Students will remain in the warm-up room until judges are ready to begin auditions. The director assigned as Judge #1 is to review this sheet with the moderator and the additional judges in the room. When all understand the procedures, each person in the room is to sign one copy this form and return it to the tabulation room. Keep the second copy in the room to use as a reference. After this, students will be sent to your room to audition. If breaks must be taken, the moderator is to clear the hallway of all students that will be auditioning in your room. Dinner will be served to you in your room, so the only reason to break will be to use the lavatory. In the audition room, auditions are to be “blind”, with all of the judges’ backs to the students. The moderator calls in the student, takes the correct score sheet from the student, and tells the judges the student’s Audition Identification Number. The moderator should give a friendly greeting to each student as he enters. Try to create a calm, relaxed atmosphere. Above all, be courteous and professional. Judges’ scores are to be recorded individually for each student on the Judges Worksheets. These worksheets are extremely important as they are our only means for checking scores. Note that scores in a 10 point category must be within 3 points, inclusive between all judges (ex.: scores of 5,7, and 7 are OK; scores of 5,7 and 8 are not) and in a 20 point category must be within 5 points, inclusive, (ex.: scores of 4,7, and 8 are OK; scores of 4,7, and 9 are not). When the judges have completed scoring the student and the student has been dismissed, the judges should read their scores to the moderator who is to record them on the student’s score sheet. After recording the scores, they should be added across. Runners will come to your room periodically to collect score sheets and take them to the tabulation room. All audition rooms must remain open until registration closes. When registration has closed and you think that you have auditioned all students, have the moderator check at the registration desk or tabulation room to determine the number of students that have registered for your instrument. If you have auditioned all that have registered, you are finished. If you are missing students, please have someone announce the student’s number in the warm-up room. If they cannot be located, they may be auditioning on more than one instrument and are in another line. You will need to check for them in the other area and wait for them. If you cannot locate the student at all, go to the tabulation room and someone will handle the problem or instruct you to close the room. When your room has completed auditioning students, all judges and the moderator should report to the tabulation room and be signed out. It is important that all report so that if there are any problems, they can be solved before you leave. If you wish to have results mailed to you, you should complete an envelope when you sign out. Please do not enter the tabulation room to ask questions or look for students score sheets. Interruptions will cause delays in completing results packets.

Wind Scales - The student should play three major scales and one chromatic scale. Scales must be played in as many complete octaves as possible within the published ranges. Scales must be played from memory. We suggest one easy or comfortable scale, one for technical difficulty, and one for range. Rhythmic patterns, range requirements and scale requirements are in your room folder. Place the selections on the index cards provided in the packet. Place the cards face down and have the students select one when they enter the room. The three cards should be different from each other, but as similar in difficulty as possible.

String Scales - The student should play three major scales. Judges should determine slurred or bowed for each scale. Scales should be played in as many octaves as possible within the published ranges. Scales must be played from memory. We suggest one easy or comfortable scale, one for technical difficulty and one for range. Rhythmic patterns, range requirements and scale requirements are in your room folder. Place the selections on the index cards provided in the packet. Place the cards face down and have the students select one when they enter the room. The three cards should be different from each other, but as similar in difficulty as possible.

Keyboard Percussion Scales - Scales should be three major scales and one Chromatic Scale. Scales should be played in as many octaves as possible on the instrument. The student may play the chromatic scale of their choice in even octaves (one octave required). Scales must be played from memory. Rhythmic patterns, range requirements, and scale requirements are in your folder.

Traps Rudiments - You should choose one rudiment each on triangle, bass drum, crash cymbals, and tambourine from the rudiment sheet. Rudiments must be played from memory. Be sure to record a score in each box on the score sheet; you cannot combine categories when you give scores.

Snare Rudiments - You should choose three rudiments from the rudiment sheet that demonstrate various areas of the student's ability.

Timpani Rudiments - You should hear the three required rolls from each student. For tuning, each student should be given two pitches to match. These should be different from the pitches in the solo and sight reading literature. All pitches given for tuning must be given on a pitch pipe.

Solo - Judges should select appropriate passages from the solo to demonstrate enough of the student's musicianship to determine an accurate score. Be sure the passage(s) selected are within the range requirements. You must hear the same section(s) from each student. It is suggested that at least two passages be selected from the solo, one displaying expression, tone, etc. and the other displaying technical ability. If a solo has movements, be sure to ask a passage from each movement. Absolutely no cadenzas are to be heard. The student must have an original copy of the solo. Photocopies are not permitted.

Sight Reading - Sight Reading materials are provided in your packet. You should choose an appropriate passage to determine the reading skills of the student. Again, each student is to be given the same section to read. If you feel that you do not have adequate materials, please ask. The moderator will set the same sight reading tempo for all students. Students should have 30 seconds to look over the passage. At the end of 30 seconds, you should ask them to begin."

The moderator is to greet the student by number. Moderators only are permitted to converse with the student. At the conclusion of the audition, the moderator should thank and dismiss the student, instructing him or her to wait in the hall until the next student is called into the audition room. This is done in case the adjudicators need to hear a part of the audition again. The moderator should withhold all comments regarding the playing ability, teacher, school or qualifications. The moderator is not to discuss the audition with the student.

SCORING

The difference between the high scoring adjudicator and the low scoring adjudicator will be limited to a three (3) inclusive point difference in the ten (10) point captions and a five (5) inclusive point difference in the (20) point caption. Ties in the Final Score will be broken in the tabulation room by references to the following scores listed in priority order:

REHEARSAL AND PERFORMANCE INFORMATION

REHEARSAL AND PERFORMANCE REQUIREMENTS

Members of the All South Jersey Ensembles are required to attend all rehearsals and performances. Students will be excused from rehearsal only for reasons of verified illness or family calamity. Absences for any other reason including school activities, college tests and rehearsals for other organizations will be counted as unexcused and result in dismissal from the organization. An unexcused absence may also result in future ineligibility from South Jersey and All State organizations. In the event of an absence due to illness or family calamity, the manager of the organization or one of the officers should be contacted. Seating concerns due to extended excused absences will be addressed by the executive board in conjunction with the conductor and manager.

If after the audition results are published, a student finds that he/she will not be able to participate in the organization, the sponsoring director should contact the Auditions Procedures Chairperson so that a substitution can be made. Substitutions will be made according to audition results with the next student in line being offered the vacancy.

Students are not permitted to leave the rehearsal and performance sites until the days activities are concluded and the students are dismissed, regardless of the age or driving status of the student. The use of drugs and alcoholic beverages is not permitted and will result in immediate dismissal from the organization. Discipline problems will be dealt with by the Executive Committee and may also result in dismissal from the organization.

Students are expected to supply the necessary equipment and instruments for their performance in the organization. Items such as mutes, reeds, small percussion equipment and mallets are the responsibility of the student and sponsoring director. Although not needed for performances, students should bring a music stand and pencil with them to all rehearsals.

Students are responsible for the care, safekeeping and return of all music distributed to them by the organization. Music must be returned at the end of the concert in order for the student to receive their participation pin. The student will be financially responsible for any music lost or damaged.

Any equipment and instruments borrowed for use by the organization will be the responsibility of the student using the instrument. All instruments and equipment must be returned to the satisfaction of the owner prior to the student receiving his/her participation pin. The student will be financially responsible for any loss or damage to borrowed equipment and instruments.

Sponsoring directors are ultimately responsible for the financial obligations of their students. Failure to respond to these financial obligations may result in that sponsoring director's students being ineligible for future All South Jersey organizations.

CONCERT BAND FESTIVAL

1. Purpose and Administration

The purpose and objectives of the Concert Band Festival sponsored by SJBODA are:

- a. to provide incentive for the development of musical understanding, skills, and taste through performances which are aimed at exhibiting each group at its most mature level of performance.
- b. to provide students and teachers a means of hearing work done by other school groups.
- c. to stimulate and to recognize growth.
- d. to provide students and teachers a means of receiving constructive criticism by qualified adjudicators.

2. Eligibility

Any student enrolled in a junior high/ middle or senior high school in Region III is eligible to participate in this event. A student must be regular performing member of his/her school band at the time of the festival. All participating directors must be members of NJMEA.

3. Responsibilities

a. Region President

The Region III President is responsible for selecting the Festival Chairperson.

b. Festival Chairperson

The Festival Chairperson is responsible for arranging for a suitable festival site, establishing and accounting for participation fees, securing adjudicators, correspondence with festival participants, development of schedule and format. Once the applications have been received, the chairperson will send correspondence to participants advising of festival schedule, names of adjudicators, and other pertinent information. The Festival Chairperson is accountable to the Region III President concerning all of the above responsibilities.

c. Directors

Directors are responsible for completing the application in full (including program info sheet and stage crew sheet) and return it prior to the deadline. Directors are to furnish three original scores of each composition for the adjudicators on the Festival day. The scores must have all measures numbered. All scores submitted must be in accordance with current United States copyright laws. Photocopied scores must be accompanied by a letter from the publisher stating that the scores are out of print or have been ordered. Permission for photocopying must come from the publisher. Adjudicators will not use unauthorized photocopies.

d. Students

Students are expected to meet the eligibility requirements and to abide by the rules of behavior of the hosting festival site. Students will also be responsible for bringing a bag lunch.

4. Selection of Performance Options

- a. Comments Only - This option is offered to the band who does not want a rating for its performance. Repertoire is of the director's choosing. Rating sheets will carry no numbers for the judging categories and no final rating will be given. Adjudicators will only give comments and suggestions on the performance.
- b. Rating - This option is offered to the band who wishes to be given an evaluation based on its performance of graded band literature.

5. Selection of Music

Each director should select and prepare three compositions to perform, one warm-up selection and two concert selections.

a. Warm-up selection - In order to adjust to the acoustical properties of auditorium, temperature, pitch levels, etc., all groups may precede their concert selections with a "warm-up" selection of their choosing. A chorale or march not to exceed four minutes is suggested.

b. Concert selections - For the final two compositions, we suggest that directors consult the band music guides at the following sources: National Band Association, Instrumentalist Magazine, or NYSSMA. Consideration should be given to grade level:

Grade 1 - mainly for the first year instrumentalists

Grade 2 - for those definitely beyond the beginning band stages.

Grade 3 - for those who have acquired some technique

Grade 4 - for more advanced instrumentalists

Grade 5 - mostly for college players

Grade 6 - for the skilled professional

If there is any question as to the grade level of your chosen pieces, and you do not have the above references, please contact the Festival Chairperson for assistance.

6. Ratings - A composite rating will be given which is an average of the ratings given by the three adjudicators. The five rating plan will be used in adjudicating the Concert Band Festival:

Rating I - Highest Rating

Rating II

Rating III

Rating IV

Rating V

7. Interpretation of Ratings -

a) Rating I - Highest Rating

A superior interpretation and performance, technically and musically, of all three selections. The comments and number grades on the adjudicator forms correspond to and justify the final rating. The performance demonstrates that the group is able to meet all of the technical demands of the music with precision and no aural evidence of strain; the musicality of the performance demonstrates an acute awareness of the composer's intent and desire. It is, to all appearances, free of technical errors and shows much attention to the music's expressive features. The director demonstrates an ability to clearly communicate his interpretation requirements to the group, and the performers respond immediately and accurately.

b) Rating II

An excellent interpretation and performance of all three selections, or a superior performance of one selection and excellent of two. The comments and number grades on the adjudication forms correspond to and justify the final rating. Technical demands are met with precision and the musical requirements are met with integrity in meeting the composer's intent, desires, and instructions. It is an authentic reading, marred by noticeable technical errors and intonation defects. The ensemble shows the results of sound fundamental training, but the performance lacks the polish and finesse necessary to qualify for a Rating I.

c) Rating III

A good interpretation and performance of all three selections, technically and musically, or a combination of performances of the three selections which would justify an overall Rating of III. The group is unable to execute all of the technical demands of the music with precision and accuracy and does not demonstrate an awareness of the musical demands required for an outstanding performance. The group may lack instrumentation essential to an authentic reading of the music, or it may lack consistence in strength in all of its selections. The general quality of the performance represents good preparation, attention to detail, and good musicianship; but the performance is marred by a large number of technical errors, obvious problems with intonation, rhythmic inaccuracies, and a lack of dynamic contrast. The director's interpretation is communicated well to the performers, and they respond well to direction.

d) Rating IV

A performance which approximates the technical and musical requirements of the music but is seriously lacking in its rendition. The number grades and comments on the adjudication forms should justify the final rating. The performance is consistently weak and filled with technical errors and intonation problems. The group has obvious weaknesses in the basic fundamentals of embouchure, tone production, rhythms, and articulation, and is not prepared to meet the technical or musical demands of the music. The group has been overextended, and music should be selected which is more commensurate with its performance proficiency.

e) Rating V

A performance which is unacceptable technically or musically. It demonstrates a lack of technical proficiency and musical understanding. The quality of the performance is such that an adjudicator finds few, if any, commendable qualities. Careless and bad habits are prevalent, evidencing poor preparation and training. The group should be encouraged to concentrate on fundamentals and perform less difficult music. The judges may confer after hearing approximately half of the performing groups. Each adjudicator is to give an individual rating and then all ratings will be averaged. Each performing group will be graded on the lowest level of any composition selected from the Band Music guide (i.e., selections from Grades III and IV will be classified at the Grade III performance level).

8. Selection of Sight Reading

A fourth adjudicator will work with each performing group in the sight reading room. When the group is seated and tuned according to the director's wishes, the sight reading material will be distributed. The director will be allowed up to seven minutes to work with the students and to instruct them before performing the selection. During this time, the director and students may engage in any type of instructional activity (such as singing, clapping rhythms, etc.) the director wishes. However, no one is to play his/her instrument during this time. During the performance, the director may give rehearsal letter or numbers, verbal cues, sing, etc. The group is to play the selection in its entirety. If it becomes necessary for the group to stop, they can resume by going back to the nearest letter or number.

1) Material to be used -Newly published material will be used for sight reading. Literature to be read will be approximately one to two grade levels below your selected grade of concert music.

2) Ratings - A similar five rating plan will also be used in adjudicating the sight reading portion.

3) Interpretation of Ratings - The Festival Chairperson will familiarize the adjudicator with the same criteria for evaluation as the other three adjudicators. (Ratings I, II, III, IV, V)

9. Time Logistics

a. Response to Application - Responses should be made as soon as possible to allow the Festival Chairperson ample time to schedule bands and make the proper arrangements.

b. Festival with Clinic Day

1) Each group will proceed to the designated performance area for all aspects of the performance, including a twenty (20) minute warm-up.

2) Each group will have twenty (20) minutes to perform their selected program for adjudicators.

3) Immediately following the performance, one of the adjudicators will perform a twenty (20) minute clinic with the group.

c. Festival with Competition Rating Day

1) Warm-up - Each group will be allotted (20) minutes in the warm-up room to be used as the director pleases. Ten (10) more minutes will be used to move from the warm-up room to the backstage area and set up.

2) Performance - Each group will have thirty (30) minutes to set the stage, tune and perform.

3) Sight Reading - Each group will have ten (10) minutes to exit the stage area, proceed to the sight reading room, and set up. The sight reading portion will last no longer than twenty (20) minutes.

d. Viewing Other Performances - Director's are requested to have their bands enter and/or exit areas only while stage is being set for another group to perform. Directors are also reminded to properly supervise their students when they are not performing.

10. State Gala Selection

a. Only bands competing for ratings on the Competition Ratings day of the Festival will be considered for selection to the State Gala.

b. Only one band from the same school may be selected to attend the State Gala.

c. Bands competing for selection to the State Gala should be available to attend the Gala if selected. The date for the Gala is listed on the SJBODA calendar. If upon selection a band is unavailable to attend the State Gala, the Festival Chairperson and the SJBODA President should be notified as soon as possible.
